# CLAY MASKS COSKAO™

370,000 VND

## SPIRULINA

The most delicately brightening and skin-stimulating

The most nourishing, revitalizing and anti-aging mask in our collection.

Spirulina is a highly concentrated blue-green microalgae packed with proteins, antioxidants, amino acids and essential minerals. It deeply nourishes the skin at a cellular level, restores vitality, and improves overall tone and elasticity.

Spirulina is ideal for skins that feel tired, dull, stressed or lacking firmness, and is widely used in luxury anti-aging protocols due to its ability to support regeneration and boost radiance.

🌿 What makes Spirulina special?

Spirulina is not a clay — it does not dry, tighten or “pull.”

Instead, it feeds the skin, making it especially beneficial after massage or lymphatic work, when the skin is ready to absorb nutrients.

It is rich in:

- Phycocyanin (powerful anti-inflammatory antioxidant)
- Amino acids (supports collagen production)
- Minerals & trace elements (rebuilds and strengthens skin)
- Vitamins B, E, K (brightens and energizes complexion)

🌟 Key Actions

- Provides deep nutritional support at the cellular level
- Boosts radiance and restores glow to tired, dull skin
- Reduces inflammation and helps even out skin tone
- Improves firmness and supports collagen renewal
- Smooths, softens and re-energizes the complexion
- Enhances post-massage results (skin absorbs better)

🧡 Skin Types

- Normal, dry, dull, mature, sensitive
- Ideal for: tired skin, stressed skin, loss of tone, early aging signs
- Avoid for: very oily or active acne-prone skin

💎 Why Spirulina deserves its own page

- It is the only mask in your menu focused on nourishment, not detox
- It visibly improves glow, firmness and texture after one application
- Works synergistically with ReBloom facial massage (perfect finish)
- Has a luxurious, spa-like feel and premium active profile
- Clients LOVE treatments that “feed the skin,” not just clean it

# REBLOOM FACE MASSAGE

## The Natural Alternative to Botox and invasive procedures

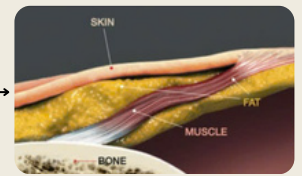

Every woman dreams of keeping her skin fresh, firm, and radiant – without needles, without chemicals, without pain. At ReBloom, we've proven that rejuvenation is possible naturally when you work with the deep structures of the face.

### WHY DOES THE FACE AGE?

- Muscles become over-contracted → tension, folds, wrinkles
- Lymphatic flow slows down → puffiness, dull complexion
- Collagen production declines → loss of firmness
- Chronic stress raises cortisol → accelerates aging

Skin before massage

Skin after massage

### OUR METHOD – ANATOMICAL MANUAL THERAPY

We work with the deep muscles and fascia of the face, neck, and head:

- Releasing tension and relaxing over-contracted areas
- Toning weak muscles to restore balance
- Activating blood circulation and lymphatic drainage
- Stimulating natural collagen and elastin production

### OUR SIGNATURE TECHNIQUES

#### 1. Deep Tissue Face Massage

Intensive fascia release to smooth wrinkles and restore a defined contour.
